PROFESSIONAL SUMMARY

Full-stack developer and founder shipping production SaaS products. Founded Triforce Software (\$20K+ revenue) and built Doorline (AI property analysis), Forge (deployment platform), and apps for healthcare and sales. Track record of measurable impact: work orders cut from 33 to 28 days at On Q, a sales portal scaling to 300+ reps and 1K leads/day at Fusion Power, and 67% process time reduction at Veritas.

CORE COMPETENCIES

WORK EXPERIENCE

Triforce Software

2026 -- Present

Founder | triforce-software.com

KEY ACCOMPLISHMENTS

- Founded a software studio generating **\$20K+ revenue** across 4 clients
- Shipped Doorline (property analysis) and Forge (deployment platform); building two more apps for healthcare and sales

SKILLS

- NextJS, React, TypeScript, Tailwind CSS, Docker, cloud infrastructure

Doorline

2026 -- Present

Founder | doorline.dev

KEY ACCOMPLISHMENTS

- Built AI-assisted rental property analysis platform integrating **Mashvisor, ATTOM, HUD, and Rentcast** data
- Built metered public REST API with tiered pricing, usage tracking, and Stripe-billed overages
- Implemented AI investment memos, deal finder with map clustering, and portfolio dashboard

SKILLS

- NextJS 16, React 19, TypeScript, PostgreSQL, Drizzle ORM, Mapbox, Stripe, AI SDK

Forge

2026 -- Present

Founder | forge.triforce-software.com

KEY ACCOMPLISHMENTS

- Built a full-stack deployment platform with multi-tenant org management
- Integrated Stripe billing, AI features via **Anthropic SDK**, and admin dashboards
- Implemented custom domains, SSL, rollback, and preview deployments

SKILLS

- NextJS 16, React 19, TypeScript, PostgreSQL, Drizzle ORM, Docker, Kubernetes, Stripe

On Q Property Management

Feb 2025 -- Present

Software Developer -- Gilbert, Arizona

KEY ACCOMPLISHMENTS

- Automated Salesforce and Propertyware workflows, saving the accounting team significant manual hours
- Built maintenance request form that cut average work order time (open to close) from **33 days to 28 days**
- Created an **MCP server** that improved developer efficiency across the engineering team
- Awarded **2025 Rookie of the Year**

SKILLS

- NextJS, Salesforce, Propertyware, AWS Bedrock, MCP, distributed team collaboration

Fusion Power

Apr 2023 -- Nov 2025

Software Developer -- Chandler, AZ

KEY ACCOMPLISHMENTS

- Built sales portal scaling to **300+ reps** processing **~1,000 leads per work day**
- Implemented NuxtJS for server-side rendering, improving page performance and SEO
- Integrated **Stripe** for invoicing and payment processing

SKILLS

- Vue, NuxtJS, Stripe, SSR, SEO optimization

Veritas Technologies LLC

May 2023 -- Aug 2023

IT Developer Intern

KEY ACCOMPLISHMENTS

- Built web solution automating SaaS provisioning, eliminating manual Excel/Word forms
- Nominated as **top 3 presenter** at company-wide intern showcase

SKILLS

- Web development, SaaS automation, process optimization

Veritas Technologies LLC

May 2022 -- Aug 2022

IT Developer Intern

KEY ACCOMPLISHMENTS

- Transformed order hold app from embedded Java to React.js + Spring Boot, cutting process time by **67%**
- Developed cloud-based application for Global Trade Management with IT Order Management team

SKILLS

- React.js, Java Spring Boot, cloud-based application development

EDUCATION

B.S. Computer Science -- Arizona State University, Tempe, AZ

Fall 2025

Sun Devil State Award | Dean's Scholarship
